[Despatch Abstract.]

Tools and Plant-Manufacture of Bitumen Drum Mixers for Mangalore Highways Division at a cost of Rs.4,800/- Sanctioned.

From
Sri K.K.Nambiar, B.E., M.I.E.(Ind), F.Inst., H.E.(Eng), M.I.Mun., E.(Eng), M.Am., Soc., C.E., M.R.San., Im,
Chief Engineer (Highways),
Chepauk, Madras. 5.

To
The Secretary to Government,
Public Works Department,

Letter No. 24372 B2/52-8 dated 1. 11. 1952.

Sir,

Sub: Tools and Plant - Manufacture of Bitumen Drum Mixers - costing Rs.4,800/- for Mangalore Division - Sanction - requested.

---

1 For the execution of the huge programme of black top works in South Kanara Division, the Divisional Engineer (Highways), Mangalore requires urgently 24 Nos. Bitumen Drum Mixers. For manufacturing these, he has already called for tenders and has also requested to arrange for the supply of steel materials required for the manufacture. Competitive rates have been quoted by the tenderers and the cost manufacture of each drum mixer inclusive of cost of materials works out to less than Rs.200/- only or Rs.4,800/- approximately for all the 24 mixers. The cost of the mixers is very cheap and besides there is urgent need for them. I, therefore, request that sanction may be accorded for the manufacture of these 24 Nos. Bitumen Drum Mixers in South Kanara Division at a total cost of Rs.4,800/- by charging the expenditure to " Tools and Plants". In view of the urgency ~~xx~~ I have issued instructions to the Divisional Engineer to proceed with the manufacture and the Director of Industries and Commerce, Madras, is also being requested to issue necessary permit for acquiring the steel materials required for the manufacture. I request that my action ~~is~~ may be approved as a special case.

2 The expenditure is debitable to the head "50.Civil-Tools and Plants Ex P.W.R." Specific provision for this is being made in the Revised Estimate for 1952-53.

For CHIEF ENGINEER (HIGHWAYS).

Nsk./4.11.

C.No.93305 A/52 P.W.D. (A 2)

Sub: Tools and Plant - Manufacture of Bitumen Drum Mixers for Mangalore Highways Division at a cost of Rs.4,800/-

Ref: From the C.E.(H) letter No.24372 B2/52-8 dated 1/11/52.

Please see the letter from the C.E.(H) at page c.f. In G.O.No.4531,P.W. dated 7-11-1951, the C.E.(H) has been permitted to utilise Rs.45 lakhs from out of the annual maintenance allotment for providing black top surfaces to stretches of roads with a traffic intensity of over 1000 tons. The C.E.(H) has reported in another connection that it is proposed to provide black top surface for the reach from M.5/0 to 15/8 of Mangalore-Mercara Road and for the reach from M.3/4 to 12/0 of the Mangalore Agumbe Road from out of the maintenance grant and that special steps are being taken to complete the works by 31-3-1953. It may be presumed that the C.E.(H) will take up similar works on other important stretches of roads in subsequent years also from out of the maintenance grant. The C.E's proposal to manufacture 24 numbers of Bitumen Drum Mixers calls for no remarks and it may be approved. Subject to approval a draft order is submitted below. It may issue after acceptance by Finance.

19-11-52

In Connection with the Execution of B.T. works from out of the maintenance allotment, Sanction was accorded for the purchase of heavy T+P recently. Please perhaps the Circ and see whether the addl T+P now proposed by the CE are really heavy

20/11/52

Submitted.

have approved the proposal of the C.E.(H) to purchase 18 Tar boilers and 11 Asphalt Mixers at a total cost of Rs. 3.5 lakhs required for the programme of providing black top surface to roads from out of maintenance allotment. It may be mentioned here that the C.E.(H) has submitted ~~x~~ proposals separately for the purchase of some more tar boilers and asphalt mixers (viz. 47 tar boilers and 23 asphalt mixers) at an estimated cost of Rs. 8 lakhs and they are being dealt with separately. The tools and plant now asked for by the C.E.(H) and dealt with in this file seem to be ~~are~~ auxiliaries to the primary plant like Tar Boilers Asphalt Mixers, etc. The C.E.(H) has reported that in view of the urgency he has issued instructions to the Divisional Engineer (Highways) to proceed with the manufacture of the Bitumen Drum Mixers in anticipation of sanction.

For orders whether the draft already put up will be approved.
